

CLAIMS

What is claimed:

- 1 1. An article of manufacture comprising:
2 a fabric material; and
3 a digital module coupled to the fabric material wherein the digital module is sewn
4 into a portion of the fabric material.
- 1 2. The article of claim 1 wherein the fabric material comprises a polyester-type
2 material.
- 1 3. The article of claim 1 wherein the fabric material comprises a ribbon-type
2 material.
- 1 4. The article of claim 1 further comprising an activation mechanism coupled to the
2 digital module wherein the activation mechanism is sewn into the fabric material.
- 1 5. The article of claim 4 wherein the digital module includes a voice recording
2 feature whereby a voice message can be recorded.
- 1 6. The article of claim 5 wherein the activation mechanism activates the digital
2 module.
- 1 7. The article of claim 6 wherein the activation mechanism activates the voice
2 recording feature.

1 8. A packaging ribbon comprising:
2 a fabric material;
3 a digital module coupled to the fabric material; and
4 an activation mechanism coupled to the digital module wherein the digital
5 module and the activation mechanism are sewn into a portion of the fabric material.

1 9. The packaging ribbon of claim 8 wherein the fabric material comprises a
2 polyester-type material.

1 10. The packaging ribbon of claim 8 wherein the digital module includes a voice
2 recording feature whereby a voice message can be recorded.

1 11. The packaging ribbon of claim 10 wherein the activation mechanism activates the
2 digital module.

1 12. The packaging ribbon of claim 11 wherein the activation mechanism activates the
2 voice recording feature.

1 13. A packaging ribbon comprising:
2 a fabric material;
3 a printed circuit board;
4 a speaker coupled to the printed circuit board;
5 at least one activation mechanism coupled to the printed circuit board and the
6 speaker; and
7 wherein the printed circuit board and the speaker are sewn into the fabric
8 material.

1 14. The packaging ribbon of claim 13 wherein the at least one activation mechanism
2 comprises a play button and a record button.

1 15. The packaging ribbon of claim 14 wherein the play button and the record button
2 are coupled to the printed circuit board via a plurality of connection wires.
